INTRODUCTION

[02]

DARAJA Studio is a music innovation and creative hub located in the serene Lavington neighborhood of Nairobi, Kenya. Designed to serve both East African and international artists, DARAJA provides an ideal environment for all things music, from recording and production to workshops and training sessions. We offer state-of-the-art facilities and professional services to help artists realize their creative visions. Our mission is to provide a nurturing space for artists and creators to develop their craft and explore new sounds.

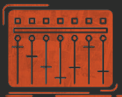

Whether you're a label, culture institution, established artist, an upcoming talent, or a creative professional, DARAJA Studio offers versatile spaces for all your creative needs.

OUR SERVICES

Music innovation and collaboration projects:

Serve as a powerhouse that designs music projects and work with various East African artists and creators to execute projects that help them rediscover and reimagine their sonic identity.

Studio Recording:

Book our world-class studio spaces for recording sessions that cater to your professional needs.

Video Production:

Utilize our studio for video shoots, taking advantage of our aesthetic space to capture stunning visuals.

Workshops and Training:

Reserve our specialized spaces for workshops, writing camps, or training sessions.

Mixing:

Access our high-end equipment and experienced engineers for all your mixing and mastering projects.

ABOUT THE SPACE

DARAJA Studio comprises two fully equipped studios, a spacious common working area, and a designated space for training and workshops.

The environment in the lush Lavington area offers tranquility and inspiration, making it an ideal creative sanctuary.

STUDIO 1

Fitted with state-of-the-art production and mixing equipment tailored to meet the highest industry standards. This studio is perfect for artists who demand professional-grade tools for their recording and production needs. It offers modern technology, a sound-treated environment, and expert technicians to assist during your sessions.

STUDIO 2

Features a unique vintage mixing desk setup that encompasses a recording and mixing room. It's perfect for brainstorming sessions and conceptual projects.

TRAINING AND WORKSHOP SPACES

DARAJA provides specialized spaces designed for workshops and training programs, where artists can host writing camps, production seminars, or creative collaboration sessions. The atmosphere designed with intention to inspire innovation and artistic expression.

OUR PARTNERS

KILIFI OFF-GRID STUDIO AND COLLECTIVE

In collaboration with Kilifi's Baobab Studios, we offer access to a unique off-grid recording experience. Set amidst the natural beauty of the 50-acre Beneath The Baobabs venue on Kenya's coast, Baobab Studios offers a secluded space ideal for live recording projects. The natural surroundings and the studio's creative design provide a perfect setting for artists looking for a remote and inspirational recording experience.

VILLAGE CREATIVE

We've partnered with Village Creative, a vibrant community of creative agencies offering comprehensive production and creative support to artists. At DARAJA, you'll have access to top creative professionals who can assist you with everything from creative direction to production and editing. This partnership ensures that our guests and collaborators have a one-stop solution for all their creative needs, enabling them to focus on their craft while we handle the rest.

OUR STUDIO TEAM

At **DARAJA**, we take pride in our talented team of professionals, all dedicated to making your experience smooth and creative.

WAMBUI PROJECT MANAGER

Wambui ensures that every project runs efficiently and meets your creative and logistical needs.

RUNO STUDIO TECHNICIAN

With a keen ear and expert technical skills, Runo handles all your recording and mixing needs, ensuring world-class quality.

MR. LU RESIDENT PRODUCER

Mr. Lu is our resident producer and Mix/master engineer. A versatile musician with great attention to detail.

MIKE MUEMA COMMERCIAL PRODUCER

Mike is a seasoned commercial producer and mix and mastering engineer, dedicated to delivering exceptional audio quality to every project.
